Why you should hire me to help you improve your English skills.

My name is Jonathon Scott. I was born in the United States. I lived there all my life until 2021 when I moved to Querétaro, México, where I now live as a Permanent Resident. More specifically, I live in Zákia in El Marqués.

I am not a school. I am a private tutor. I teach all the classes myself. You receive 1:1 quality instruction and each lesson is personalized just for you.

One of the most important factors in learning a language is exposure to authentic and natural speech. As a native English speaker, I can provide this kind of input, as well as feedback and guidance on how to improve your language skills.

However, not all native English tutors are the same. I would like to point out that I was born, raised, educated, and worked all my life in the United States for some of the world's largest corporations in the world.

I specialize in offering quality instruction from intermediate to very advanced corporate and business English to students and working professionals.

I also provide business consulting services such as document translation, content creation, voiceovers, and I help business persons and students with special projects in Mexico and in the United States.

I have a vast amount of experience in the business world as well as a background in training and education, law, high technology, human resources, insurance, and consulting.

I offer the lowest rates and the best value for personalized one-to-one lessons. The classes are conducted in English, but when helpful, I can speak Spanish well enough to help you save time and money learning difficult words and concepts.

Some of the benefits of hiring me as your English tutor are:

- You can improve your English skills for your career or personal goals with a native speaker who has extensive experience in various business fields.
- You can access a range of services that go beyond teaching, such as creating social media posts, websites, career development, or preparing for job interviews or speeches in English.
- You can learn from someone who understands the culture and language in the United States.
- You can enjoy flexible scheduling and payment options, as well as free materials and discounts for bulk classes.

- I follow a communicative approach to language teaching. This means I focus on developing your ability to use English in real-life situations, rather than solely teaching grammar rules or vocabulary lists.
- I also adapt my lessons to your needs and interests and use authentic materials and tasks.

In addition to background and training, there are many other benefits of hiring me as your tutor to help you better understand idiomatic expressions, pop culture, phrasal verbs, and other subject areas that students often find difficult to master, especially if you rely on dictionaries or textbooks.

Idiomatic expressions are phrases that have a meaning different from the literal meaning of the words. For example, "to kick the bucket" means "to die", not "to hit a bucket with your foot". Idiomatic expressions and phrasal verbs are very common in English and can be very confusing and difficult to learn.

Another important study area is pop culture, the set of ideas, trends, and phenomena that are popular and influential in a society at a given time.

Pop culture includes things like music, movies, TV shows, books, celebrities, sports, fashion, slang, memes, and more.

Pop culture is an important part of language learning because it reflects the culture and values of the people who speak the language. Understanding pop culture also helps you connect with other speakers and understand their references and jokes.

I can help you learn about pop culture in English, as well as share my personal opinions and experiences. For example, I can tell you about my favorite bands or movies, explain the meaning and history of slang words or memes, or discuss current events or controversies.

Other factors that make me the best choice for your tutoring needs include:

- I have a standard American accent that is easy to understand and imitate.
- I have a deep knowledge of American culture, history, politics, geography, education system, business etiquette, and more.

- I can help you prepare for exams like TOEFL or IELTS that are based on American English.
- I can help you apply for jobs or schools in the United States by reviewing your resume or essay.
- I offer career advice and can help you practice for job interviews in English as well as help you prepare a resume or cover letter.
- I can introduce you to other native speakers or resources that can enhance your learning.
- I can make your speech more natural and fluent.

In conclusion, hiring me as your English tutor is a wise investment if you want to learn English effectively and enjoyably. I can offer you many advantages in terms of idiomatic expressions, pop culture, and other factors that will make your language learning experience more rewarding and fun.
